

Electric Tower Heater

Model COH40005

1500W Electric Oscillating Tower Heater with Carbon Fiber Tube

Stay cozy and comfortable with the **Deko Living 1500W Electric Tower Heater with Carbon Fiber Tube** a sleek, modern, and powerful heating solution for any space. This portable tower heater offers fast, efficient warmth with custom power settings and advanced safety features. Its oscillating function provides wide-area heat distribution, while the waterproof design makes it ideal for both indoor and outdoor use. Whether you're relaxing at home or entertaining guests on the patio, this heater has you covered.

- **Fast and Efficient Heating** 1500W power output with a high-performance carbon fiber heating element for instant, energy-efficient warmth. Two & nine power settings let you customize the heating intensity to suit your comfort level.
- **Smart Controls for Ultimate Convenience** Features a digital display with touch button controls. Includes a remote control for adjusting power, timer, and wide area oscillation from across the room. 1 to 24 hour timer allows you to schedule heating sessions.
- **Wide-Area Heating with Oscillation** Oscillating design distributes heat evenly across larger areas, warming up every corner of the room. Ideal for living rooms, patios, bedrooms, or any space that needs quick, consistent warmth.
- **Safe, Durable, and Weather-Resistant** Tip-over protection and overheat protection provide peace of mind for households with kids or pets. Waterproof design makes it safe for use indoors or outdoors, even in damp environments.
